

**IAAH CONGRESS 2017: PRE-CONGRESS SKILLS BUILDING WORKSHOP 11**  
**Thursday October 26<sup>th</sup>**

<b>WORKSHOP TITLE</b>	<b>How to Publish Your Scientific Paper: Advice from Journal Editors</b>
<b>RATIONALE</b>	<p>With the globalization of public health and health science research, there are more opportunities than ever for scientists to publish their work in a scholarly journal. But how does one select the most appropriate journal for one's work, and how does one increase the likelihood of acceptance and publication?</p> <p>In this interactive workshop, journal editors will discuss what they look for in a competitive manuscript. Participants will learn how to evaluate potential journals prior to submission, what they can expect from the editorial process, and how they can increase recognition of their work post-publication.</p> <p>The goal is for participants to leave the workshop with a publication strategy for the promotion and dissemination of their research.</p>
<b>Facilitators:</b>	<p>Tor Berg, Managing Editor, Journal of Adolescent Health (JAH)  Tor.berg@ucsf.edu  Charles E. Irwin, Jr., M.D., Editor-in-Chief, JAH  jahlth@ucsf.edu</p>
<b>Taking place:</b>	<b>Morning</b>
<b>Training objectives</b>	<ol style="list-style-type: none"> <li>1. Match one's scientific work to the most appropriate journal for peer review and publication.</li> <li>2. Prepare a competitive manuscript for submission to a scholarly journal.</li> <li>3. Negotiate rights and post-publication licensing in an open-access world.</li> <li>4. Promote and disseminate one's scientific work post-publication</li> </ol>
<b>Facilitation techniques</b>	<ul style="list-style-type: none"> <li>• Ask participants to questions, concerns, and past experiences</li> <li>• Provide overview of journal operations and editorial processes with powerpoint presentation</li> <li>• Invite participants to develop a specific publication strategy with workshop as a whole or in small groups</li> </ul>
